

Limit value regulator MAG-A / MAG-A-AS

1-2 pumps; Connection: 3PH 400V 50/60Hz

With backlit plain text display. Water shortage shutdown, limit value guard, Dry running shutdown, 2x Dig. Input, 2x relay output, power selector per pump, 1x sensor input 4-20mA, soft starter with reserve, integrated motor protection, fuse per motor, Main switch, error memory, real-time clock, Modbus RTU RS485 interface, SD card data logger.

ohne Sensor, ohne Modem, ohne Zubehör,

Version: Limit value switch,

Option: GSM modem, PLC remote control, timer functions, **connection to "Raindancer" possible.**
